. . . Highway Tragedy

Roundup

tembers of the 1964 Lindsay Collegiate Girls' Choir are shown above this attractive group picture taken by Dent Studios, Lindsay, They re, left to right, to the control of the control of the control of the total control of the control of the control of the control of the lingsborough, Catherine Dunn, Susan Wilford, Beverley Michityte, onna Bradi, Nelle Vanderbent, Inalitya Weldon, Elsenor Rich, onnete Miglee, Mary Gordon, Alva Goodhand, Marilyn Taylor, Chird sy Mr. S. C. Londe (director), Mare Poter, Everley Moore, Marily

Scott, Shirley Moore, Elaine Hancock, Velma Willis, Shirley McKe Shirley Zahlaid, Penny Gheven, Connie Weister, Marilyn Rich, Quinn, Dorolly, Smith, Sanfar, Clyma, Blogthon, Deak rosy Quinn, Dorolly, Smith, Sanfar, Clyma, Blogthon, Scott Coppins, Betty Sinclair, Margaret Trumble, Gall Webster, Edd. Lingel Rajidi, Anne Howie and Belty Parker. These girls, it mil noted are from throughout the entire Victoria County Jilja, har area which includes some chikfron from North Durham County.

To attain perfection in anything requires practice and lots of it. Perhaps that accounts for the perfection in voice bleading which is being achieved in the 1954 version of the Lindsay Collegiate Institute Girls' Choir under the direction of Mr. S. C. Lonie. For months now—since October to be exact—the choir and its dinow—since OCLOPET to 90 exact—the tool and in an ex-rection have been giving up a part of their noon hours to achieve this perfection. The director with student members of the choir, have been taking their lunches to school for weeks on end in order that every pare minute of their lunch period might be devoted to practising for their choral concert towards the end of

The LGI Choir has been an annual undertaking of Nr. Louis for several years and it has won wide acclaim, often requiring repeal performances to satisfy the mide hunger of the people in this district.

Nr. Lonis and his choir are productive with y the choir has the choir with the choir has the choir with the choir has the choir with the choir has type to the choir with sufficient that year. . . . that of providing a beautiful new grand piano for use in the high school auditorium. The concert last year provided the choir with sufficient funds to make the purchase of the insurranent and this year it is their ambition to raise sufficient additional quads to wise out any removement and the choir will make the official presentation of the piano to the High School Area Board at that time.

Comprised of 40 highly-trained voices, the c will present a well-arranged concert of folk songs, light

opera and other secular and sacred numbers.

Mary Rutherford, A.R.C.T., Toronto pianist, will be assisting artist. She is an accomplished pianist with assisting artist. See is an accompanied parameter will end of the experience and an extensive musical repertoire. Also assisting at the concert will be Francis Taylor, L.C.L.'s well and favourably known young baritone. He will sing both with the choir and also

The concert will be held at the Lindsay Collegiate the last Thursday evening in March. Tickets are now on sale from any of the choir girls, or Mr. Lonie, direct-or, or principal Eberlee.

COFFEE PRICES ...

Offsee prices have been to the forefront in the news for several weeks now and have developed into something of a copie of the co

off in 1953 and this doesn't seem to justify recent price forceases which have been attributed to a "shortege" or "greatly reduced yield."

In the case of coffee prices, the consumer has a real opportunity to battle exorbitant demands because coffee in out an essential item. It can be dispensed with temporarily and perhaps to some advantage to the enumer from a beatiful as well as a financial consumption, particularly when the price is out of the case of coffee to loring the properties of the consumer properties of the consumer properties of the consumer properties and the consumer of the consumer properties are consumer to the co

something which is acquired and can be just as easily lost if the cost becomes prohibitive. Tea is an equally good drink with very satisfying stimulating qualities.

IS LINDSAY OVER-ORGANIZED?

The indifferent attendance at some public mentings called in recent times is being interpreted by some people to indicate that. Lindsay of manded being and that there are set in the proposed of ine interest in more than one or two and still have time to enjoy his or her private life.

The situation is not one to be overly-concerned

about since experience has shown that over-organiza-tion has a tendency to correct itself by the simple pro-cess of elimination. In Lindeay's case a solution to the problem of the indifference in various projects might be

reached by consolidation and unification of effort.

Instead of having several groups working on somewhat related community projects, it might be found both practicable and advisable to unite and form a "c noted practicates and anysance to unite and form a "com-munity projects council" which could deal with various phases of municipal development outside the sphere of Town Council. That there is strength in unity has been proven too often to be ignored by local or-ganizations working in the interest of this community.

### RURAL TELEPHONE INTERFERENCE

The Ontario Telephone Act revisions which are now before the Ontario Legislature and which will quite probably become law by reason of the governing party's overwhelming majority, would appear to contain cer-tain weaknesses. The greatest of these is the forma-tion of an Ontario Telephone Authority which, it seems,

tun wéarcease. ... ne pracest or toses in the formation of an Ontario Telephone Authority which, it seems will be placed in the position of being able to interfers from omach with the sent properties of the Authority's powers, it will be set up to "regulation of the Authority's powers, it will be set up to "regulation of the Authority's powers, it will be set up to "regulate the provent searches of plants, sale to prove the service given by independents."

These powers suggest a control by the government which exceeds its need to ensure reasonably good telephone service and there are very good reasons to believe that such an Authority will be responsible for working a hardship and the provent of the province of the provent of the province o necessarily by interference in the business methods employed by these independent companies if the proposed Authority's powers are to be as far-reaching as now indicated.

There may be room for some amendments to the Telephone Act in the interests of maintaining a reas-onable service to the public but matters of policy within these various independent companies should not be interfered with to the extent that a hardship is worked

interfered with to the extent that a narramp is worse, on the public on the public of the public of

terephone systems.

There is such a thing as too much government interference and the present amendment to the Ontario Telephone Act appears to be paving the way for something of this sort.

### INTEREST IN MINERAL

# WEALTH OF HALIBURTON

WEALTH OF HALIBURTON
Interest in the mineral wealth of the Haliburton
highlands has been revived in recent weeks and appears to be vigerously sustained. It would be a very
pleasing economic development for this entire district
if really valuable mineral development materializes in
the area now being prospected and claim-staked. At
the present moment there is reason for mild optimism
on this score because some reputable unline; consulation of the properties of the properties of the control of they have taken up options, staked and, in some instanc-es, commenced drilling. However, this fact does not in itself mean that the area being tested will prove econ-

in itself mean that the area being tested will prove scom-mically worthy of further development, but it does seem that the present interest and activity in the area seem that the present interest and activity in the area of The highland area has long been suspected of pos-sessing, bidden mineral wealth. C. W. Hodgson, M.P. of the ridding, has for several years been advocating that the uranium potential of the district be seriously invastigated by federal authorities. Just what has coninvestigated by federal authorities. Vinced Mr. Hodgson that the area has good reserves of uranium-bearing ores is not fullly known but recent developments tend to confirm his convictions in this developments tend to confirm ins convictions in this connection. Those average citizens who have occasionally looked over the highland area and taken an interest in its rock formations, have been generally of the opinion that there seemed to be no sound reason thy valuable mineral deposits weren't to be found in the

Earlier attempts are on record of mining u takings in the district now under study but none of these were extremely successful. But times change, meth-ods of mineral location improve and areas which showed

# OTHERS SAY

### MaCARTHY'S FORUM

The forum of Rome was a small and ineffective areas for rabble-rousers compared with the television screen that Senator Joseph McCarthy uses, and a much page thing McCarthy uses, and a much senator than the senator of the senator o baser thing McCarthy makes of his senatorship by TV than did Brutus of the Roman Senats hall and forum

Senator McCarthy "ordered" the American Secre Senator security "ordered" the American Sectorary of the Army to appear before his Senate committee and face his charges that the army was attempting to "coddle and promote Communists". It was arranged to "coddle and promote Communitat". It was arranged that two olevision metiworks should breadcast the contraction. And thus, where hundreds of thousands of TV viewers, McTwitter hundreds of thousands of TV viewers, and the properties of the contraction of the

ican nation. If ever there was misuse of a great forum, and fill for the functions of television, it is by such broadcasts. A people set up courts, under legislation; the public court of TV is not the place to try a man's integrity or a nation's army. —Peterborough Examiner.

tegrty or a nations army. —Peterboroush Examiner, promise in earlier days (thus pleared out after limited operations) may now be found to have required only a little may now be found to have need them econducted to the property of the pro

volument.

On one occasion we were privileged to see a collection of mineral samples which had been taken from the Taliburton County area, particularly the eastern section, and it was a most impressive assortment. Having seen this collection, we have never since been able to lightly discount reports of important mineral finds in the area.

The present uranium interest in the highlands may The present uranium interest in the nignanous may bring undreamed of development but it would be wise at this stage to view its progress with a cautiously op-timistic eye, at the same time encouraging exploration and study of the area.

### SPRING AND SAP

SPRING AND SAP

The brilliant flashes of apringliks weather which
we have been enjoying in between anowatorns serve
to remind us that the real thing cannot be too far
away. There are many signs which assure us that
those great mounds of snow which border our streets,
clog our driveways and shelter the spring crops will not
for its proper appear and the spring crops will not
for its proper appear and the spring crops will not
for its proper appear as more frequent intervals.

A few veran gao, and its likely the same today in

streams have open spots at more frequent intervals.

A few years ago, and it is likely the same today in spme sections of Ontarlo, one of the things the children of the fural areas looked forward to most in spring-time was the beginning of the sap run in the maple bush. time was the segaming of the say in in the subject of the word got around that the sap was running it was the signal for the spring season's first pligrimage "to the woods". Sometimes it was a very disastrous pligrimage from the standpoint of wear and tear on clothgroups from the standpoint of wear and tear on clothing but the participants generally agreed at the end of the jaunt that the delight of drinking from a bucket of cool, sweet sap more than repaid them for any hardships endured. Then there was the added pleasure of cool, awest sap more than repaid them for any attraships endured. Then there was the added pleasure of
happening to chance along just at the time seed
happening to chance along just at the time of
happening to chance along just at the time of
the control of the several of the several of the several
products are to the several of all sweet things,
maple styrup. The rigours of the trip often made by
plodding across very modify fields or by following the
longer remaining anowarite route around the hedgerows, were sometimes further compensated by a plee
of maple sugar, although this was only on very rare
consalions. Then there were other times when the
presence of children in the sugar bush, except when
helping to gather in the sap was very unvestome and
the time of the sevent of the sevent was the time of
the time of the sevent of the sevent was the time
of the time of the sevent of the sevent of the sevent
The advent of the sevent season was also a time
for stocking up with maple syrup to last through the
coming summer and winter. Maple sever as perticularly cheap commodity, bringing from \$2 to
\$2.50 per gallon eees in the hardest times but then it
was not used extravagantly either, being reserved for
those apecial occasions, when hisp-lacks and a syrup

those special occasions when flap-jacks and syrup were the order of the day.

were the order of the day.
Those children who are fortunate enough in this day to be able to make the springtime pilgrimage to the august bank are privileged indeed for they are experiencing the true advent of spring. . . the time when all nature is shaking off the shakeds of winter and surging forward to participate in another glorious season of growth and activity. It might do a lot of older children a heap of good to go out of baler way to enjoy the experience of a valid to a migar both this spring.

### THIS CURVE SEEMS TO NEED ADDITIONAL WARNING SIGNS

ADDITIONAL WARNING SIGNS
Another accident occurred at the "Dew Drop Inn"
curve west of Lindsay over the weekend. Several guide
posts were demolished in the accident and an elm tree
of tender years was stripped of some of its bark—evidence of an accident all too often recorded at this point.
The frequency with which accidents occur at this

The frequency with which accidents occur at this corres suggests that there may be something lacking in the way of warning signs. Or it may be that the curve in poorly constructed but this wouldn't appear to be the case, although it must be admitted that it is a fairly alrupt curre and is not designed to accommisdate vehicles travelling at high rates of speed. Whatever whiches travelling at high rates of speed. Whatever the reason, it is time that something was done to investigate and take whatever steps are necessary to reduce

will no doubt be the aim of the Trans-Canada highway, when it continues its eastward course from Oakwood where it left off last year, to overcome such danger points by taking a course which will eliminate

A RESPONSIBILITY WHICH IS NOT

A RESPONSIBILITY WHICH IS NOT BEING MET IN CANADA...

The Silect Committee on Reform Institutions' charge that comic books, and it's were responsively compared that comic books, and it's were responsively compared to the properties of the province. It will no doubt come as a construction of the province of the view of the province o

on the part of centors which was permitting undesirable pictures to past through unchallenged and upon whom responsibilities for their showing rests.

The property of the public. They should also serve to alter parents to the necessity for supervising more fully their children's entertainment. This is a difficult as an anyone in authority over children will admit but it is an important one and its necleter on otherwise and the property of the as anyone in authority over chainers will admit a an important one and its neglect or otherwise can have far-reaching effects not only on the child but on the community in which the child lives. The authorities can only go so far in protecting children from undesir-able influences—parents must do their part too!

# Others Say ....

CO-OPERATION OR BLANE

ONE of the most difficult tasks facing editorial

writes in this country today is who should be blamed
for increased unemployment. Some blame high wage
and low productivity of labor. Others claim manufacturers and retailers are grabbing too big a profit. While
still others, in traditional fashion, lay the accusing
finger at the doorstops of various governments because
of high taxes. It all depends upon member or a big
industrialist, we find ourselves in the middle of the
fragment, wholly unqualified to analyze the situation,
but with the opinion that all of us must bear some reaponousbility.

not with the opinion during a cure is more sponsibility. The polymore during a cure is more important than spending our time blaming someone resome group for the present situation. At the moment, nobedy is littling to accept or confess any guit. Each of us latrying to hard to make somebody else the goat. Each of us expects somebody else that a complete plant to cure the lillense, instead of thinking how much we ourselves are involved.

There is only one answer to the problem that we can see. The brains of each group will have to sit down together, not to significantly acute at the moment for this kind of meeting and we hope it will have improved by apring to the point where the gloomy folks find their pessitions dispelled. But, we should be planning now for the day when such a meeting may be necessary.

planning new for the say were such a mercung me, occessary, mecassary, means and the state with well come out at that time. If we are to be dependent on export markets, our products have to be priced to meet word our present standard of living, our unit cost has not lost as low or lower than a distribution. This applies to manufactured and farm products. To do this, and ministrut our present standard of living, our unit cost has to be as her of bear than a large standard of living, our unit cost has to be as low or lower than a large standard or living the standard of living and taxes to weard or our selling price will not be low enough to meet competition. It is certainly a tough problem to selve, but it can find the other following to the cooperate instead of his fact that the canadian Statesman.

### Laugh it off ...

The minister of a small rural church was imploring

an old man to repent his size.

an old man to repent his size, which was supporting an old man to repent his size, which was the desirate, "If you answer oue question for me," Ill start coming to church."

"And what is the question?" asked the winister, "Who was Cain's wite?" asked the old finitive. "In the world with the minister storage." "You will never be able to embrace religion until you stop better."

. . . . If a fellow tries to kiss a girl and gets away with it, he's a man; if he tries and doesn't get away with it, he's a brute; if he doesn't try but would get away with it if he did try, he's a coward; if he doesn't try and would not have gotten away with it if he tried, he's wise.

THE "EXTRA MILL" LINDSAY HAS REFUSED TO PAY TOWARD MAINTAINING THE H.S. AREA

Nothing in recent years has focussed the attention of the rest of Victoria County on the Town of Lindsay quite so much as the town's refusal to pay the "extra mill" toward maintenance of the District High School Area, Virtually aware manifestation. mill'toward maintenance of the District. High School Area. Nitroully every musicality has protested to town's decision to refuse payment of the extra mill for 1958 and it would appear that the outside musicapalities and the town both have reasons for protesting and the fining to pay, respectively.

appears that the present time, been too strong and too measured to the present time, been too strong and too measured to the present time, been too strong and too measured to the present time, been too strong and too measured to the present time, been too strong and too measured to the present time, been too strong and too measured to the present time, been too strong and too measured to the present time, been too strong and too measured to the present time, been too strong and too measured to the present time, been too strong and too measured the present time, been too strong and too measured the present time, been too strong and too measured the present time, been too strong and too measured the present time, been too strong and too measured the present time, been too strong time time.

When the High School Area was first formed, fol-lowing writen application for sense by Lindeay Cond-1800, it of 1800, it of When the High School Area was first formed, folentarges ong account at the assessment, therefore rose proportion Linday's coulsiled assessment, therefore rose proportionatedly, so that Linday was paying a much larger additional sum than the "extra mill" originally agreed to represented in the beginning. This naturally accused the tower some concern and Country 1858 and flat; refused to pay the work of the contribution of the cont

incurred by a previous council is not the answer. The situation calls for some give and take on both sides in an effort to reach an "amicable and fair" agreement. No lawsuit is likely to achieve this, but there is r to believe that a consultation between the Board and Lindsay's Council would resolve the problem. If it should develop that no settlement could be reached be-

should develop that no settlement could be wrached ob-tween the two parties, there is still the privilege of re-sorting to arbitration which, while it would not be as conting as laws that, would still ential some costs in view of these things is there not a clear-cut re-sponsibility on the part of both Lindsay's Counse of the High School Area Roward to sake as made of action dollars as possible by a voiding other many of action until all other avenues of settlement have been gone over? And, isn't it likely that if the matter goes to costly litigation whichever side wins will perhaps be the butt of considerable criticism if their gain is only a

butt of considerable criticism it their gam is only fraction of the costs statisfied in getting R? As things now stand the High School Area being fairly disposed, cannot fail to recognize that the original agreement between town and outside municipalities has been virtually wiped out by changed condi-tions and therefore some fresh arrangement should be defatted. Lindsay on the other hand must feel impelled defatted. This condition is the control of the condition of the conditi traited. Limited with their was a moral obligation incurred when the town first entered the high school area which should not be lightly dismissed.

If there is a lesson to be learned by the situation

now at band, it could conceivably be that agreements between town and county should be subjected to annual review and negotiation. And that their terms should be written into a witnessed contract.

SAFETY IN CARS...
The other night an article appeared in one of the papers telling of a member of the Ontario legislature's feelings in the matter of cars and safety on the roads, the auggested that manufacturers should be required by law to equip all cars with governors which made possible. law to equip all cars with governors which made possible a maximum speed of 60 miles per bour. "The Post's advanced a similar suggestion a few weeks ago and it is antisying to note that there are consistent to the control of the co

quate action to curo the trend.

There is a growing feeling among many people that car manufacturers have an obligation to the motoring public to do more than they have been in the interests of safety. One very good idea which was advanced the other days a suggested the other days. eas of asfety. One very good idea which was advanced by a band of thick rubber or other shock-absorbing material so that a head-on collision would produce a bounce instead of a crash. Still another suggestion concerned the interior construction of cars and advocated a foam rubber, or similar cushioning panel across the top to break the force of impact in an upper. More dequate protection across the dashboard area was also recommended, plus general construction improvement which would get away from the "sardine can" feature

which would get away from the actionic can be determined as a compared to the compared to the

### OTHERS SAY

INCENTIVES COMING UP

INCENTIVES COMING UP
"When your neighbor loses his job, that's a recession; when you lose your own job, that's a depression."
By this yardstick there are now 3,000,000 "depressions"
in the United States, according to latest figures on unin the emited states, according to make theres on the employment. But there is no depression in the usual sense of the word, and wide confidence among economists that there will be none.

Indeed, there have been several spirts of new activity in the last week. Moreover, there are additional indications that incentives to consumer buying both official and non official incentives—are coming up.
In Congress increasing pressures are developing for

both official and non official incentives—are coming in.

Congress increasing pressures are developing for further tax cuts.

Even the processing pressures are developing for further tax cuts.

Even the process are collected in a potential spur to better business. But the larger, incentives are not better business. But the larger, incentives are not better business. But the larger, incentives are not process. They don't depend on official action. They are already here—in the shape of price cuts. Here is the best, the most effective, the most wirely simulational to a state of the stat

hower's promise to move boldly it March ligures show a continuing decline is good insurance against psycholog-ical factors which could produce such a decline. It would be foolish to assume that the American economy is "out of the woods." The chief economist of the conservative National Industrial Conference Board says the United States is definitely in a "reces-Board says the United States is definitely in a "recess-sion." There is danger that forces making for rigidity in prices and wages may too long reaser readjusted in the state of the state of the state of the state of the to make reductions is very great. But awareness of this danger of rigidity and visible moves to meet it are on the increase. Indeed, there is reason to hope that the incentives for increased business activity already in sight will prove sufficient to turn the tide.

-Christian Science Monitor

What's a dollar to a fisherman? The Department of Lands and Forests presumes that it is nothing much. It recommends in the White Paper tabled this week in in recommends in the White Paper tabled this week in the Outario Legislature that a one-dollar seasonal fee be charged to residents of the Province if they fish Since there are hundreds of thousands of fishermen in Ontario, a tidy aum could be got to help pay the bills of the Department resulting from its attempt to restock the lakes and rivers. The fishermen benefit; they should pay. That is the argument.

It is sound enough, from one angle. But as a matter of principle it does not appeal to us. Have to pay for the right to hold a rod over a pond? And what about the barefoot boy with cheek of tan and a can of about the barefoot boy with cheek of tan and a can of worma? And the indises who of a lary summer after-noon like to dangle a book with one hand and a roman-tic north with their bushands under protest, an extra like interference with an inherited right. Tax outsiders, yes, but these are our waters.

Is it the majority of fishermen—the people who would pay the majority of the dollars in tax—who deplete the lakes and rivers? What about these people who live all year round by the lakes and rivers, fish whenever they take the notion and the game inspector is not around, and who would be hard to find, anyway, when it came time to collect the \$1 licence fee? As for when I came time to collect the \$1 incence (see ? As for the cost of re-slocking, perhaps developing science in managing fishing waters will produce better results at less cost. And stricter adherence to fishing regulations, seasonal limits, maximum catches, minimum lengths, will do more than any \$1 tax would to preserve

Our final question: How is the \$1 tax going to be collected? What army of snoopers and inspectors will have to be paid to catch the unlicensed occasional Sunday fisher? Would the resident fish licence not be summy table; to collect fairly and squarely than the old radio licence fee, which long before it was abolished was a public joke and a maker of law-evaders by the was a public loke and a maker of inw-evagers by the million. At least most radio sets were stationary, and up and down immovable streets. Who is going to examine the credentials of the floating four hundred thousand fishermen who drop a line here, there and everywhere?

—Peterborough Examiner.

- by Millicent -

To do their Easter Shopping. They hurried right along the road Without a thought of stopping.

"Where to?" said the Easter Bunny Who was sitting in the sun, "We're off to 30 William North

To get our shopping done."

"Where's that?" asked Bunny Rabbit As he gave a little hon.

"Where's that!" the twins asked in

The JOLLY JUNIOR SHOP

"Of course, of course" said Bunny "Sure everybody knows That's the store that has the wool

And toys and things-and clothes!"

The twins then burried right along To do their Springtime shopping

# INCREASING INTEREST IN CHILDREN'S

INGREASING INTEREST IN OHILDREN'S SCHOOL ACTIVITIES SHOWN HERE...

The past week has produced evidence of an Increasing interest by parents and guardians in the wel-fare and activities of their children in Lindsay's schools. All of the public schools have reported a larger must of adult participants at 'open house' provided in the various units. This report sugars were fire coherence. of "Education Week" and its effect on child-parent

tion of "Education were an in since of the conlong billing which renews our interest in the progress
and development of our children is a good thing. We
are sometimes so prescripted with our own problems
that we fall to take into proper consideration the welface of our children either in school or around the home.
As long as they are into no mischief, we take their
the control of the control of the control of the contensor of the control of the control of the contensor of the control of the control of the conproperly clothed and decently mannered. Some among
ue regrettably may even neglect those things. To these
pools—Education Weels" and a visit to their children's
school might bring about a new awareness of the importance of these young people, the monitaling of
the control of the control of

aways been keenly interested in the activities of their children in and out of school . . people whose interest is enduring and who undoubtedly reap many rich re-wards as a result of their closeness to their offspring. Fortunate indeed are those parents who take time out at regular intervals to really get to know their children for by so doing they enrich two lives . . . their children's

"Education Week's" contribution to the nation will he noteworthy if it is responsible for bringing parents, children and teachers closer together and there is evidence that it has done that in many instances.

### THERE'S REALLY NO SUCH STREET

For years now a street running east off Lindsay Street has been incorrectly named. It has been masquerading as "Kent St. East" whereas Kent Street m as the Britton block and, since it does not do this, how can another street running east of Lindsay Street several feet to the North of Kent St. be accurately referred to as "Kent St. East"?

referred to as "Keni St. Essa"?

It was suggested during a meeting of Town
Council that "east" streets such as Kent, Russell,
Glenell, etc., be renamed to avoid contains for people
looking for "east-of-the-river" addresses. The suggestion was turned down but we believe this decision
should be reconsidered along with other street name
complications such as the one mentioned at the outset of this article. Any review of street names might, it is suggested, include some consideration for improving the name indicators of main arteries, particularly having in mind the need for increased night-time readability. Of course it may be argued in this latter nection that "one can always ask" but how much complicated to be able to "see for yourself".

### MUCH TO DO ABOUT NOTHING . .

The hullabaloo over Canada's reverses on the international hockey front when it dropped the world's championship game to a Russian team has proven a little nauseating to many Canadian sportsmen. Among these is a Lindsay resident who has handed "The Post" an editorial from the "Ottawa Journal" which sums the situation up in words which we believe most true sportsmen will agree with 100 per cent. Here is the Journal's comment on the affair: JUST BEATEN THAT IS ALL

The Russians have beaten Canada at hockey and national calamity, a national humiliation," says one prominent sports writer. A member of Pavliament threatens to split the Commons wide open over the catastrophe. It seems that the hockey officials who sele vestigated by a McCarthy commission, or lynched.

ager of the team has lamented bitterly that some spectators called his men "swine," and so upset is he that he suggests that "If they don't want us" Canada should not enter the world championship any more. Some of the rooting against Canada, he said, darkly, "comes from Communist sympathisers,"

"This all looks suspiciously to us as though we can't take it. It reminds us, sadly, of some of the comments made by the (beaten) United States tennis players about how terribly nasty those big Australian spectators all were with their 'orrible cockney accents. It also recalle memories of a time when a (beaten) Russian soccer team left the field in indignation, swearing it had all been a capitalist plot to buy the referees,
"The facts are fairly simple. The team chosen to

represent Canada put the puck in the Russian net twice, and the team chosen to represent Russia put the puck in the Canadian net seven times. According to the rules of the game and the object of the exercise this meant that Russia beat Canada and, incidentally, won the

world championship.

"It may be that Canada could have selected a better team, but if it comes to that it may be that Russia could have selected a better team. Those canny Kremlins aren't inclined to work any harder than they need

Canadian hockey officials may well search their souls and resolve to send their best team next time. In the meantime we are no longer world champions, but we find in this no catastrophe, no Communist plot, no national humiliation; we just got beaten, that's all."

# OTHERS SAY

INDIGENT PATIENT DEFICITS

NOIGENT PATIENT DEFICITS
The Toronto General Hospital has billed the city for an amount representing its deficit on indigent patients last year. The situation is that \$228.072 already paid by the city under the statutory rate of contribution, plus \$228.482 in statutory and supplementary grants by the province—a total of \$465.714—falls short \$28.08.27 of meeting the patient of the statutory rate of contribution of the city annually in respect of the same thing. With hospital costs rising, the gap between income and outloot steadily widens.
The Outario Hospital Association in a pamphile that the city annually in regret to the indigent patient situation. The four statutory is a supplementary of the indigent patient situation, the few were set for his the pewer. Weber said association accountains reckoned the average loss on indigents at \$6 a. day.

as the OHA points out, there is a heavy financial As the OIIA points out, there is a heavy financial burden on hospitals in those areas "where the municipal authorities do not voluntarily assume a larger propor-tion of the coat than called for by statute." Belleville is now paying the full rate on indigents. Government attainties indicate public ward cost there as Sovernment Belleville intelligencer suggests to the same proposition of the catalogue of the burden on the control of the same of the support of the full rate on the coverdent. ties follow this example and the independent of the time" of placing part of the burden on the provident. The example is unlikely to be followed widely without provincial action, and President Weber of the Hospital Association is of opinion that "it should not be difficult." convince any government" that municipal rates ould be increased to a point more in keeping with

Toronto is now paying actual operating defic rather than indigent patient deficits. By this meth the city has the advantage of hospital profits on pay tan Council, but as of what date is not clear

### HOW'S YOUR AVERAGE INCOME?

Because the Department of National Revenue is interested in collecting income taxes it is also interested in incomes. The figures that come to it give the Department an opportunity to tot-up how much people In that year Peterborough had 12,810 income taxpayers; they declared an average income of \$2,930, and they paid on that income a total of \$37,500,000. This was an average of \$211 for the year.

On the basis of average income, computed from forms, people of Peterborough are far down the list. Top average income in cities of Canada was earned by Top average moons in cutes of canana was earned by Trail and Kimberley—\$3,486. A difference is that only 5,890 people in the two towns paid income tax. Shawingan Falls (Quo.) is second, average income of \$3,10' taxpayers being \$3,432. Next, surprisingly enough, in the city of \$1,00hm, Newfoundland. The average declared income for tax purposes there was average declared income for tax purposes there was 23.48. We note, however, that in that city of \$5,000 cmly \$10.700 people paid income tax. Compare this with them of \$8.372. Incidentally, some Newfoundland people are fond of saying, "Look how much tax we pay in exchange for the Federal qualidies, grants, bonuses and the like". Well, \$11. John's is the only Newfound-land town in the whole Clansidani sit of income taxpsy-land town in the whole Clansidani sit of income taxpsyers, and the St. John's people paid a total of only \$3,600,-000 in income tax. Peterborough, as we have already said, contributed \$2,700,000 that year.

said, contributed \$2,700.000 that year.
The average income of Torontonian income-tax
Toron average income of Torontonian income-tax
Torontonian income and the second income and more honest than citizens of other places, or less skil ful in finding tax loopholes?

STREET PATCHING TIME APPROACHES....

The season for patching up Lindary's street for the season for patching up Lindary's street for another spell is approaching and, judging from the number of pot-tokes, there is hig job to be done. One thing about this plobes to our streets seem to have the proper seem of the plots, i. they are dislogded with provocative season and only in a few instances do they last the following wither OUT. This is a situation which deserves more attention than it has received in the past with a time to producing a patching process with more than the ordinary adhesive qualities or with an overall seal which resists the luvasion of water which is primarily blamed for the dislodging of these patches.

TO WHAT EXTENT CAN THESE ATOMIC AND HYDROGEN BOMB TESTS BE TOLERATED?

The incidents reported in the Par East following the explosion of the most recent atomic and (or ) byten-gen bombs developed by the United Stapes who have concern to more that of the bombs are more far-teaching than the United States authorities apparently there. The lettest and most significant of these reports for the Which tells of atomic dust being showered on parts of Japan proper, nearly 2000 miles from the second of the bomb test after at Bikini atoil. This report is evidence that the prople who have developed these bideous explosives have now produced something which they are unable to fully control and which may be doing far greater damage than either they or the world suspects.

ports.

In view of these developments the people of the world are becoming disturbed by the possibility: that the world are becoming disturbed by the possibility: that the life-fitces of the bomb exposions may be more wide provided by the provided by the provided by the life-fit of the provided by the

# Others Say ....

A REAL SHOOK TO THE SYSTEM
You just can't believe anything any more. For
years, we've been a devotee of horacle and for everything from haby's dispers to sore eyes. Overnight, confidence of the decades has been wiped out by reports
that the stuff is really poisonous and responsible for
everyal death. Hospitals have hanned its use and 'we
everyal death. Hospitals have hanned its use and 'we
everyal death. Hospitals have hanned its use and 'we
everyal death. Hospitals have harned its use and 'we
everyal death. Hospitals have have a sea of the
field the medicine cheet and destroyed the supply on
hand. A shook like that can break a man's faith in
the medical and pharmaceutical profession. At least,
they could have tool us gradually the way the government does when bringing in new taxation. For months
there are runous of . Then, when the blow comes it is
not quite so unexpected. That method would certainly
have been much less shocking in this bord or broad'
eard case.

—The Canadian Statevman.

### Laugh it off ---

Rain lashed the castle windows and the wind howled mourafully as the timid guest was escorted to his room under the castle eaves. "Has anything unusal ever happened in this room?" he asked the sister look-

ing butler.
"Not for 40 years."

"Not for 40 years."
Heaving a sigh of relief, the guest asked. "What happened them?" The butler's eyes glittered ominously as he hissed. "A man who stayed here all night showed up the next morning."

+ + + + + Husband: I'm going to make a resolution not to

drink any more.

Wife: Not to drink any more? What's the use of that? You couldn't possibly drink any more.

OUR RENEWABLE RESOURCES

OUR RENEWABLE REDUCTIONS
... a new urgenoy
... a special interest to all those who are concerned with the conservation of our renewable resources and who have frequently been distressed by glaring examples of want-

aste and indifference to future needs, some

on waste and indifference to future needs, switch is apparent right in our own district.

The purpose of this conference as defined by the Canadian Forestry Association, is to bring together many leaders "criticulture, forest industry and the forestry professio" representatives of national business and engineering, and public service groups, and give reation of all renewable resources a new urgence conservation of all renewants resolutes a new Means, and a broader meaning. The considered views of the nation-wide delegations to be used as a guide to be presented to industry and to provincial and national governments for their information and action.

governments for their information and action.

That there is a need for a new sense of urgency to
be impressed on the minds of all charged with the cars
of our renewable resources. (and this includes almost of our renewable resources, (and other renewable reservoir part the stage of childhood) is brought home in many ways on numerous occasions. Each spring, summer and fall we hear of multiple forest fires which summer and fall we bear of multiple forest fires which wips out thousands of acree of valuable timberland... At certain seasons of the year we hear several reports of near-drought conditions in which creeks and other sources of farm water supply virtually dry up... As we drive through certain sections of Ontario we find we unverthrough certain sections of Untario we find marsh areas once inhabited by beaver deserted and dried up due to a number of reasons, some of which would probably be preventable if proper foresight were employed . . . . We see once stately forests reduced to a barren stumpland with no effort being made in many instances to replace these trees which were once ruth-

There are many other evidences of a very apparent need for a sense of urgency in conserving our renewable resources but the important thing is that a real start be made somewhere and soon. If the Canadian Forestry Association's efforts hasten this day it will be deserving of the eternal gratitude of coming generations of Cana-

# INCREASED POSTAL RATES: DECREASED BUSINESS?

Will the increase in postal rates have an adverse effect on certain types of business and further aggravate an economy which is already showing some soft spots? This is a question which is being asked by many people today who are in businesses which are liable to suffer to today who are in bisinesses which are liable to suffer to an unpredictable extent by increased postal rates. One of these businesses is the greeting card industry which has assumed large proportions in Canada in recent years but which could conceivably suffer extensively when higher postal rates come into effect, making mailing the card almost equal to the purchase price in many

Thousands of dollars worth of business is tra ed annually through the mails and as a result of this business many people are employed in manufacturing ousiness many people are employed in manufacturing products sold by mail and the various phases of distribu-tion. It will be cause for righteous indignation if these businesses suffer reverses due to increased postal rates, thus further aggravating the present unemploy-

ment situation.

There seems to be general agreement these days that the federal government has shown very poor leadership in recent weeks by approving items which will tend to place a heavier burden on the Canadian public. This is particularly true when all across the country there are evidences that the cost of living is at least tablet are evaluate to table in the sat least stabilizing itself if not gradually easing off. There are some appreciable reductions in the cost of certain foods and other necessities and postal rate increases, to say nothing of whopping big salary boosts for all members of parliament, are inconsistent with the trend to say the

THE FACTS ARE....
A certain amount of discussion followed publication of a letter in "The Post" last week relative to the law governing the loads trucks may carry during the "half-load" season which is now in effect. Actually, there seems to be considerable misunderstanding on the subject and in conversation with provincial police at Lindsay it has been learned that the term "half-load" doesn't apply all the way through and that trucks in ertain weight categories are exempted entirely. to try and help keep the record straight the following information obtained from the provincial officers may be of some assistance to readers who are using trucks

In their business.
First of all it is learned that the gross weight of a vehicle as shown on the ownership license doesn't fully determine the weight the vehicle may carry on the high-ways when half-loads are in effect. The gross weight of the vehicle combines, as might readily be assued, the weight of the vehicle and the weight of the load the vehicle is inconsed to carry. It is only on the licensed load capacity that the "half-load" ruling applies. For example: (A) A truck with a gross weight of 10,000 pounds made upon the proposal over highly and popular, would be entitled to proceed over highly any with half-load in effect with a maximum load. (B) A truck with a gross weight as of 13,000 pounds made up or vehicle weight 6,000 pounds. maximum load. (B) A truck with a gross weight asy of 18,000 pounds made up of vehicle weight 6,000 pounds and licensed load capacity of 12,000 pounds would be en-titled to proceed over highways with balf loads in effect with a gross weight of 12,000 pounds (6,000 vehicle weight, plus 6,000 load weight or half the licensed load

In order to simplify the load weight schedule while half loads are in effect the Highway Traffic Act rules

All trucks with licensed load capacities of up to

# OTHERS SAY

NO. 100 COMES TO LIGHT
Prior to the Atomic Age there were 92 known chemical elements. That is there were 92 known substances which defied being broken down into more fundamental constituents. Scientisis did admit that there were more than 92 elements, but they had been able to isolate

them and study their properties.

The list now has reached 100 with production and identification of No. 100 in an atomic reactor in the United States. The newcomer is yet unnamed, but it is tive because it is the heaviest element known.

distinctive because it is the heavest element.

Scientists have predicted that nuclear research would extend the list of elements far beyond the 92 that olated up to 1945. So far eight have been fied, and no one can tell how many others await discov-

It is a long way from the day when the four h elements of creation were thought to be earth, air, fire, and water. But at least then it was believed there were no hidden surprises. Today we must be prepared for anything.

St. Thomas Times-Journal.

U. S. POWER TO DECLARE WAR

Some speculation has been caused by President Eisenhower's recent statement that there is going to be 'no involvement of America in war unless it is a result of the constitutional process that is placed upon Congress to declare it." The question asked is whether this would prevent the "instant retaliation" which he and Mr. Dulles have declared would follow an enemy

The statement was made at a press conference in reply to a reporter who asked what the President would do if American technicians in Indo-China were captured or killed. It may be taken that it was meant to refer to such a contingency, and possibly to the Indo-China

tack on the United States by Soviet Russia, for that would involve the country in war without the consent of Congress, and the administration would not withhold etaliation until Congress had made a formal declara

If President Truman had waited for Congress to debate the matter, intervention in Korea would have been bate the matter, intervention in Korea would have been too late and that country would have been lost before too late and that country would have been lost Delore help could have come. In this case, however, Presi-dent Truman did not declare war. Acting with the authority of commander-in-chief, he sent U. S. forces into the Peninsula for police action in support of the United Nations resolution. In similar circumstances, if the case was equally serious, President Eisenhower might take similar action.

The North Atlantic Treaty binds the parties to c The North Atlantic Treaty binds the parties to con-sider an attack on one of them an attack on all, and to assist the party attacked by taking "forthwith" such action as each deems necessary, including the use of armed force, to restore and maintain the security of the armed force, to restore and maintain the security of the North Atlantia carea. In this case it might be considered that Congress, having approved the treaty, had given the consent in advance to involvement in war. It is not likely that, if a sudden attack were made on France or Britain, the President would wait for Congress to meet efore taking the action that might be necessary to save

6,000 pounds may carry full loads . . . . All trucks with Beensed load capacities of from 6,000 to 12,000 pounds may carry 6,000 pounds. And in the case of all trucks with Beensed load capacities of 14,000 pounds or more they are permitted to

In view of this clarification of the laws governing "half loads" there would appear to be little chance of dis-crimination and no indication of preferential treatment. THIS BUYERS' MARKET

THIS BUYERS' MARKET

Up utill recent times there has been great emphasis placed on the rising cost of living. Prices were
climbing on most commodities and this, coupled with
high taxes and top demands for various services, was
leading to the inevitable climax—a period of readjustmail in which coals would be forced into line with ment in which costs would be forced into line with ability to pay. We now appear to be passing through this readjustment period and a buyers' market has set

In Lindsay there is evidence that business people In Indeasy there is evidence that business popule are meeting this transition in a commendable way. Every day this newspaper features advertisements from many Linday business houses in which substantial savings are being offered the buying public on various commodities. In short it is now possible to huy many items at prices more in line with our ability to not.

These conditions should stimulate our interconsumers and those who are making an effort to bring us services and merchandise at reasonable prices deserve our full support. In patronizing these

prices deserve our full support. In patronizing these business people we speed the period of readjustment and stimulate production in our factories. While there are a few who are prone to talk depres-sion, the majority of us see in these changing times sion, the majority of us see in these changing times give full value for what we cross dut that challenge is to give full value for what we cross of order the best in services and goods at, prices in keeping with the multica shifty to nav.

ic's ability to pay.

This challenge must be met not only by businesses This challenge must be met not only by businesses and individuals but by governments which will be expected to bring taxes to more reasonable levels which in turn would greatly increase the nation's purchasing

LINDSAY'S DISQUALIFICATION

Lindsay's disqualification as a contestant in the

AUMA'S Pee We Tournament here on Saturday has

caused considerable feeling, particularly among the

pareats of children who were participating. The steping among these pureats seems to be that you could easily have been avoid only on the step were

could easily have been avoid only on the team were

were who were fully question of the team were

reasonable must be the state of having been subjected to the bitter pangs of disappoint

mont.

It is possible that a satisfactory explanation exists for the whole thing but satisfactory or otherwise the reason for exposing the team to disqualification by allowing over-age (only slightly) children to play should be given in order that there be on misunderstanding.

Without being close to the situation the following

(a) an age limit was established and would seem-ingly be known to all.

(b) the team was allegedly iced with the knowledge that some of these players were beyond the age limit.

(c) the team was permitted to play (and win) one game before it was disqualified.

game before it was disqualified.
An interested public is asking "Why?" to points b.
and c. and the answers, if forthcoming, should be received without prejudice or vindictiveness but with a
view to avoiding a similar incident at some future time.

# Others Say ...

### FOR SAFE TRANSFUSIONS

FOR SAFE TRANSFUSIONS
The trapic death of a young woman during an operation in a hospital in Port Collorine, Octaviro, base checking the same hospitals. In this case, six was pumped into a vein se a result of using a righted-up apparatus to baseten the transfusion process.

It is necessary in some operations to adopt some means of restoring blood more rapidly than it flows into

means of restoring blood more rapidly than it flows into the wen by gravity. On these occasions, it has apparently become a habit of attending doctors the properties of the properties of the properties of the properties of the sunsite techniques place great reliance on the human factor, as the apparatus has to be watched constantly. The elightest instantion can cause a serious accident. There is a device for preventing such incidents, and it is extremely simple and inexpensive. It should not be a supported to the properties of the support of the properties of the support of the properties of the pro

be entirely unnecessary to make official regulations requiring its use. But in order to ensure the adoption of safe techniques of transfusion in this Province, and to establish direct responsibility where it is ignored, it might be well if instructions went out to every hospital and clinic, defining the method to be followed. -The Globe & Mail

### WHIP HAND

WHIP HAND

Kangaroo bide is used to make many of the stockwhips used in Australia, but the whips themselves are
made in England by William Osborne of Birmingham.

The reason for this twenty-four thousand mile round
journey from Australia to London and back is that there are very few whilp platters left in the world. Os-borne, broadcasting in the BBC programme "This is Britain", said that Australians naturally want their atockwhips made of Australian leather and kangaroo hide is the strongest and supplest available for that type of work. The skins, which weigh some two pounds, are worth about two pounds, are tanned in Australia and are worth about two pounds, are tanned in Australia and arrive in English ready for use. Observe uses one whole akin to make a twenty-dust foot though but this whole akin to make a twenty-dust foot though but this where between eight and temperature which are the large of only one other Englishman who made strock-whip besides bimself, for this was a dying trade, al-though when the horses was on the road instead of the cart. whip-railing was a flourishing occupation, the cart. whip-railing was a flourishing occupation. Others grant of the Morente it was in his blood, for his large three three properties are the second of the cart. back through the generations were all whip and thong makers. His talents are not confined solely to the making of plaited stockwhips for the Australian market; he makes any type of plaited whip, thong or dog-lead and these fine hand-made articles are exported all over the made. the world.-BBC Bulletin

# Let us show you how good baled hay can be

The best way to judge hay quality is to examine it in the barn this time of year. Here are some things you will notice about rolled bales:

1 The hay is bright and green — just like it was baled.

2 Leaves are sealed inside the bale — all loss during handling.

ioss aurain anaina.

8 Bales that have been relined on are still good — they shed the showers.

Rolled bales handle without waste — won't buckle, break or fall apart.

Rolled bales are easy to feed — rolled out, cut ope or fed whole.

Let us show you why hay in rolled bales is winning blue ribbons for quality at leading shows. Your livestock needs the best.

#### EDITORIALS

THEY SHOULD BE TAUGHT
THAT WHICH WILL MAKE
THEM GREATIVE CITIZENS
Most people have been interested to a greater or
Benef degree in the current discussions visitive to preposed public school and proceedings. Those who
proceed the process of the pay the taxes incurred by educational costs are naturally anxious to avoid any innecessary expenditures and those who send their children to school are just as naturally enxious to have them given the very best

those who send their children to school are just as naturally anxions to have them given the very best possible training under adequate orienmentances insoften as commondation, etc., is concerned the many period and accommondation in the course of the two points which emerge the two points which members the proposed school expansion program is mentioned. One of these is the matter of providing kindergarent accommondation in the public school. There are a good many people who feet that this is entirely unwarranted and that the children of the school of the control of the

The second point which is requestly cooking out-during discussions relative to the proposed public school expansion program has to do with the nature of the training which is now being provided, and which the expanded school program would continue to provide. Thoughtful people feel that children are not being offer-ed an opportunity at this crucial training point in life to learn enough about things which will most help them to help themselves when they go out into the world to make their way. .The need for more intensive training in creative crafts and arts during the last two years of public school life is frequently cited so that a child em printer school he is frequently cited as that a character erging from public school will be creative to a greater degree than is now the case. It may be that there are reasons why such training is not practical but it is something which should be given serious consideration be-cause many children never have an opportunity to learn creative work otherwise. As a result they know bow to do simple arithmetic, read and write but are unequipped to create even the simplest thing with their own hands. What a pity this is because one of the greatest joys the human being can know is that which greates, loys the hunari being car know a took whose comes from having made spinething with his own hands. And conversely the most frustrating experience which can befall an individual is a desire to create some-thing and be unable to do so for sheer lack of rudimentary training.

ary training.

Now, what do these things indicate? Do they not indicate a need for revision of proposals for public school expansion and a desire on the part of the public for inclusion in the public school curriculum of creative training in a variety of forms for the advanced public

#### REAR BUMPERS . . .

REAR SUMPERS...
Heartening sately news comes out of the Ontario
Legislative Assembly this week. It has to do with a
cause which this newspaper has dealt with editorially
and which has been long a concern of highway safety
officials...rear bumpers for heavy vehicles. It is
coorniging to note that the Minister of Highways has
recognized the need for legislation making such devices equirement on motorized vehicles.
The minister, Hon. George Doucett, told the Ontario

The minister, Hon. George Doucett, told the Outardo Legislature that many serious accidents were classed by passenger cars running into the rear of monor trucks or being served that the government "proposes to make rear bumpers compulsory on all motor vehicles, once a nutiable bumper is developed."

Unfortunately, the minister observed, no suitable method has been found for the attachment of bumpers method in the control of the distance of the property of the control of the control

method has been found for the attachment of bumpers on certain vehicles of this type but he disclosed that he was advised that one trailer manufacturer had devised a workable method of attaching bumpers to his equipment and the subject is one which is receiving considera-

ment and the subject is one which is receiving considera-tion in many other directions.

The decision to make rear bumper equipment com-pulsory on all vehicles when a suitable device is found is an important one and will probably do more than anything else to stimulate research on such attachmer

#### ON THE OTHER HAND . . . .

Great emphasis has been placed on the latest upemployment figures on nationwide and local planes. How-ever, impressive as these figures may be, we believe that it would give the people of Canada a much truer picture of the employment situation if the figures were analyzed a little more fully. Until this moment we have only been dealing in round figures... that is the total number unemployed, with no attempt being made to break these totals down. It would be interesting, for example to learn what percentage of the total number of unem-ployed were dependent upon their earnings for support ployed were dependent upon them. It would also be for had others dependent upon them. It would also be interesting to learn (a) what percentage of the total un-employed previously worked merely to supplement the income of the head of the house and (b) how many of facome of the head of the house and (0) now many of the unemployed were actually farmers who were hold-ing jobs in industry and giving the farm secondary con-sideration or in fact "farming it out" to someone else. It seems that without more perticent information on the subject it is impossible to properly assess the un-employment situation in Canada. We know that there

ment insurance benefits but the extent to which this re-effecting the economy of the nation can hardly be de-termined with such scant information.

On the other hand, it would appear to be in the best interests of the country to guideavour to provide

#### OTHERS SAY

CAN AUTOMOBILE FATALITY PROBLEM
BE PARTIALLY SOLVED
Mortally records of the Metropolitan Life Insurance Company for the year 1953 show that there was a tight decrease in motor vehicle fatalities during the year; this despite an increase both in the number of habitate registered and in the milenge travelled. These

year; this despite an increase both in the number of whiches registered and in the mileage travelled. These figures are for the United States, and it is doubtful whether Canadian records would above a miliar tend. While pointing to this apparently encouraging trend, the big life insurance organization devotes a special chapter in its January statistical bulletin to the motor which eacident problem, in which it points to that recent figures reveal about 38,000 deaths yearly as consequence of motor which eacidents in the United States; which represents about two-fifths of all accidents and deaths in the country. al deaths in the country.

Statistics in recent years have indicated that the problem of the motor which accident is more serious in this contarty than in the United States; which is a fact that Camada has nothing to be proud to. It was charged recently by a traffic expert that a very substantial proportion of motor vehicle accidents are described to to had manners; and he posed the question as to what there is shout the wheel of a car which changed an ordinarily courteous individual into a had mannered hoor. Statistics in recent years have indicated that the

Anyone who walks the city streets in these days does not have to be very wide awake to see evidences of these bad manners on the part of the average motorist. Tricks which are hazardous in the extreme both for the pedestrian and for other drivers are freely resorted to. They include going through the yellow light: edging well the drivers are freely reaction when the light is against the drivers.

They include going through the yellow light; edging well over the intersection when the light is against the driver: turning corners at excessive speeds; and passing other cars on the wrong side.

There is nothing much that can be done about the private driver; all that can be hoped for is that, from time to time, a few of them—beedful of the preachings of public authorities, might see the error of their ways and mend them.

As currory glames through dorition of the accidents to pedestrains are caused by delivery trucks; patticularly is this so with accidents to children. And it is a noticeable fact that delivery trucks all too often are under the control of youths who have not yet reached. under the control of youths who have not yet reached the age in which they take responsibilities too seriously. It is worthy of note in this connection, that automobile insurance companies in Canada recently saw fit to

insurance companies in Canada recently saw fit to impose higher perminur rates on care driven by youthg under twenty-fire years of age.

under twenty-fire years of age.

anaded to hire responsible and competent drivers for their vehicles, there is room for some action on the part of authorities to force them to do so. At legal a pair-tial solution of the automobile fatality problem could apparently be found in this direction.

-The Financial Times

#### MORE THAN A PIECE OF METAL

We take issue with The Financial Post's complaint that there's no good or sensible reason why car license plates can't be permanent with the fee mailed in annually the same way as one pays income or property tayes.

taxes.

There are several fine factors about obtaining and affixing new colourful 1954 plates to an automobile. We have something to show for the ten dollars fee, even if it is only a couple of pieces of metal. Each year, we look forward with eagerness in the hope that the new plates will be different, more attractive than the year before. When we have worked for half an hour or so before. When we have worked for half an hour or so outore. When we have worked for hair an hour or so changing them, we almost feel that we have created something with our hands. Our car takes on a newer look and forever we are rid of those rust eaten 1953 plates which had become diegraceful in appearance. We get a real lift from driving up town the first time out with our new plates on and feel that friends are looking at us with the respect due one who can raise a ten dol-

No, please let's not worry about changing our sys-tem of yearly plates. Instead, let's do our utmost to im-prove the appearance of the plates, with slogans, bright-

prove the appearance of the plates, with slogram, bright-pers and different colours and any other gimmichs which will make buying new plates even more of an adventure. Por shame that the Pinandial Post should even suggest that the car Henne business is a nulance for the etitiess and a barrie of perty patronage for party suggest that the car Henne business is a nulance for the etitiess and a barrie of party patronage for party suggest that the car less than the party patronage for party suggest that the car less than the party patronage for party suggest that the car less than the party patronage of the layer to fit a seriew driver.

The Caradien Statement

-The Canadian Statesman

data of this nature when referring to unemployment rather than just make a blanket statement that there are so many thousand jobless. It would quite probably serve to allay many fears and would at least be more realistic in nature.

#### PROUD ACHIEVEMENT

PROUD ACHIEVEMENT
It was a deep sense of pride that the people of this
district felt as they filed out of the Lindsay Collegiate
Auditorium after the final concert of the L. C. I. Girls'
Choir on Friday night. It would, of course, require
the talent of one familiar with musical background to adequately compliment the choir's director, the choir, and the assisting artists, but all who heard the program of fine music so splendidly presented will agree that it was a "proud achievement."

that it was a "proud achievement."

The choral arrangements were beautifully executed, the vocal and plano solo numbers performed
with skill, the lighting effective, the contuming exundoubledly he with great anticipation that those who
enjoyed the concerts on Thursday and Priday evening
await the 1865 L. C. I. Girls' Choir Concert.

The contribution made by Director S. C. Lonie, his
choir and their assistants, to the cultural life of this
